

## VISION SOCCER STAFF TEACH WAUKEE P.E. CLASSES

VSA's Directors of Coaching Victor Valderrama and Bill Koeppen and Staff Coach Holly Winter spent 12 school days in November visiting Waukee Elementary Schools to teach soccer during the schools physical education classes. Coaches Koeppen, Valderrama, and Winter visited Brookview, Eason, Maple Grove, Shuler, Walnut Hills, and Waukee Elementary Schools.

In an effort to serve the community and raise awareness about Vision Soccer Academy, the three coaches spent over 50 hours teaching soccer skills to 3rd, 4th, and 5th grade classes from November 4th through the 19th. Students as well as the VSA Coaches enjoyed the experience. "It was fun working with the kids, to see them respond so positively to instruction from outside the school." commented Koeppen. "The teachers and staff at each school were very welcoming and made every effort to accommodate our staff as well as the students. We hope we can do the same in the future."
